Not pictured: Joy Lindsey, Karen Wynn, Sue Thornburg and Virginia Robertson)

The M&H Valve Team members wanted to do something special this Christmas for the United Cerebral Palsy Center (UCPC) located in Anniston Alabama. Many of the children and adults at the UCPC have special medical needs that can be very expensive for their families which can leave little or no money for anything special at Christmas. To help out, the M&H Team sold "Santa Project" t-shirts and the proceeds from the sale of the shirts helped the UCPC buy gifts, holiday gift cards and equipment for program participants.

Christmas is the perfect time of year to help those in need.
